

H.R. 3460, End Neglected Tropical Diseases Act

As ordered reported by the House Committee on Foreign Affairs on June 26, 2019

By Fiscal Year, Millions of Dollars	2019	2019-2024	2019-2029
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Deficit Effect	0	0	0
Spending Subject to Appropriation (Outlays)	0	0	0
Statutory pay-as-you-go procedures apply?	No	Mandate Effects	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2030?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No

H.R. 3460 would encourage the U.S Agency for International Development (USAID) to monitor and evaluate programs to control or eliminate tropical diseases—including leprosy, lymphatic filariasis (elephantiasis), and scabies—that disproportionately affect people living in extreme poverty. The bill also would require USAID to coordinate those programs with its other health and development programs and continue its research on tropical diseases. In addition, the bill would encourage the Department of State to better integrate its programs to control or eliminate those tropical diseases with its programs to address HIV/AIDS.

According to USAID, the bill would codify the Administration’s existing efforts. As a result, CBO estimates that implementing H.R. 3460 would not affect the budgets of USAID or the Department of State.

The CBO staff contact for this estimate is Ann E. Futrell. The estimate was reviewed by Leo Lex, Deputy Assistant Director for Budget Analysis.
