The Statutory Pay-As-You-Go Act of 2010 establishes budget-reporting and enforcement procedures for legislation affecting direct spending or revenues. The net changes in outlays that are subject to those procedures are shown here.

H.R. 2423 could increase offsetting receipts by as much as \$4 million if the U.S. Mint sells the maximum number of commemorative \$1 coins authorized by the legislation. Based on the production of similar coins, however, CBO estimates offsetting receipts would total \$3 million over the 2020-2021 period. All amounts collected would be spent in 2023.
