S. 2769 would modify or eliminate several reports that the Department of Homeland Security, the General Services Administration, the National Archives and Records Administration, and the Office of Management and Budget must prepare for the Congress. Using information from those agencies about those reports, CBO estimates that implementing the bill would, on net, reduce costs that are subject to appropriation by about \$1 million over the next five years.

The CBO staff contact for this estimate is Matthew Pickford. The estimate was reviewed by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.
