H.R. 3264 would authorize the Department of Homeland Security (DHS) to identify and analyze potential threats to infrastructure, industries, technologies, and intellectual property critical to the economic security of the United States. The agency would be required to report its findings and recommendations to the Congress annually through 2026.

The bill would authorize the appropriation of \$1 million each year from 2022 through 2026 to carry out the new requirements. Using historical patterns of spending for similar programs and assuming appropriation of the authorized amounts, CBO estimates that implementing H.R. 3264 would cost \$3 million over the 2021-2026 period and \$2 million after 2026.

The CBO staff contact for this estimate is Lindsay Wylie. The estimate was reviewed by Leo Lex, Deputy Director of Budget Analysis.
