H.R. 5274 would require Customs and Border Protection (CBP) to provide officer training on how to use containment devices to prevent secondary exposure to fentanyl and other potentially lethal substances. The bill also would require CBP to provide containment devices for officers, agents, and other personnel who are at risk of accidental exposure to synthetic opioids.

CBP is currently carrying out activities similar to those required by H.R. 5274. Thus, CBO estimates that implementing the bill would not have a significant cost; any spending would be subject to the availability of appropriated funds.

The CBO staff contact for this estimate is Sofia Guo. The estimate was reviewed by Leo Lex, Deputy Director of Budget Analysis.
