

H.R. 3771, South Asian Heart Health Awareness and Research Act of 2022
 As reported by the House Committee on Energy and Commerce on July 21, 2022

By Fiscal Year, Millions of Dollars	2022	2022-2027	2022-2032
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	0	8	not estimated
Statutory pay-as-you-go procedures apply?	No	Mandate Effects	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2033?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No

H.R. 3771 would authorize the appropriation of \$2 million annually over the 2023-2027 period to research and promote awareness of heart disease in at-risk populations, including South Asian communities. The bill would also require the Secretary of the Department of Health and Human Services to create an Internet clearinghouse on heart health research and treatment options and to report annually to the Congress on outreach efforts and data related to heart disease in these communities.

Based on historical spending patterns for public health awareness grants and cardiac health research, CBO estimates that H.R. 3771 would increase spending by \$8 million over the 2022-2027 period, subject to the appropriation of the authorized amounts.

The costs of the legislation, detailed in Table 1, fall within budget function 550 (health).

Table 1.
Estimated Increases in Spending Subject to Appropriation Under H.R. 3771

	By Fiscal Year, Millions of Dollars						2022-2027
	2022	2023	2024	2025	2026	2027	
Estimated Authorization	0	2	2	2	2	2	10
Estimated Outlays	0	1	2	2	2	2	8

Components do not sum to total because of rounding

The CBO staff contacts for this estimate are Ryan Greenfield and Sarah Sajewski. The estimate was reviewed by Leo Lex, Deputy Director of Budget Analysis.
